## DETAILED ACTION

### *Claim Objections*

1. Claims 9 and 15 are objected to because of the following informalities: minor grammatical errors.

In claim 9 on line 2, delete "slidably" and insert therefor --slidably--.

In claim 15 on line 8, delete ";" and insert therefor --, and--.

In claim 15 on line 18, change "-second" to --second--.

Appropriate correction is required.

### *Double Patenting*

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Art Unit: 3671

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 15 through 18 and 21 through 23 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 15 through 18, 1, 1 (again), and 2 of U.S. Patent No. 6,318,929 in view of Elson et al. (U.S. Patent No. 6,752,096 B1).

U.S. Patent No. '929 discloses all of the features of the claimed invention with the exception(s) of:

with regard to claims 15 and 21,

a buoyant support apparatus.

Elson et al. '096 show a buoyant boat lift apparatus.

With regard to claims 15 and 21, it would have been obvious to one having ordinary skill in the art of boat lifts at the time of invention to modify the apparatus shown by U.S. Patent No. '929 such that it would include buoyant support apparatus as taught by Elson et al. '096. The motivation would have been to include additional means by which to support the hull of a watercraft above the surface of a body of water.

*Allowable Subject Matter*

4. Claims 1 through 8, 10 through 14, 19, and 20 are allowed.
5. Claim 9 would be allowable if rewritten to overcome the objections for minor informalities set forth in the above Office action.
6. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

*Comments*

7. Applicant is advised to update the status of the parent application to include the U.S. patent number.
8. Applicant is advised to amend the Abstract to include the buoyant support.

*Conclusion*

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
